Fresno, CA 93706

Re: Tentative Order for E&B Natural Resources Management Corporation and Sherwood Hills, LLC

Dear Mr. Mahoney:

I am writing to express my support for the tentative order E&B Natural Resources Management Corporation and Sherwood Hills, LLC, which would establish waste discharge requirements for the water reclamation project.

As identified in the tentative order, this project would provide tangible benefits to both the energy and agricultural industries, while supporting water management best practices. In addition to these benefits, the tentative order includes important safeguards to help assure the safety of the environment, human health and maintain water quality.

It is important to identify new sources of water to irrigate our crops, especially in drought-prone regions like the Central Valley. Without the use of the drought proof water generated from this project, the development of approximately 4,400 acres of agricultural land would not be possible.

For these reasons, that I express my support for the tentative order E&B Natural Resources Management Corporation and Sherwood Hills, LLC.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in blue ink that reads "Jean Fuller".

Jean Fuller,
State Senator, 16th District
